D.1.1 Main objectives and activities

Describe briefly the main objectives and activities of each organisation (max. 1000 characters)

The town of Seini is a municipality is situated in the North-Western part of Romania, in the county of Maramures and has 10370 inhabitants .The nearby villages have belonged to the town of Seini since 1988, Sabisa in the Est and Viile Apei in the North West. It was formerly guarded by the Zynir Castrum citadel, the existence of which was stated around the 13th century. The inhabitants of Seini are the Romanians and the following minorities: Germans, Hungarians, the Romany and others. There is also a mixture of religions, such as the Orthodoxy the Reformed, the Greek Catholic, the Romano catholic, the Baptist, the Pentecostalism and other religions, but

all the people live, learn and work together.

The main objectives: to supply utility services in field

The main objective of the town is to assure quality public services for the citizens in the following areas: education, culture, health, social services, environment infrastructure (water, sewage, cleaning and sanitation, environmental protection), road infrastructure, the safety and security of the citizens, emergency interventions, a balanced economical development, spatial planning, and the development of economical and social programs.

The vision of the town for the following seven years, 2014-2020, is for the it to become a modern and balanced town that has developed over the years through the exploit of the resources and the local potential: agriculture, industry, tourism, providing to its inhabitants a powerful motivation to continue living in the town, to form families and invest in local opportunities. The town of Seini will attract inhabitants from nearby areas to study, settle and invest in this region and will, therefore, become a worthy example for other communities, regarding the sustainable development:

1. Improvement in life quality for the inhabitants of the town by developing the efficient public infrastructure and by increasing the quality of the environment – HABITAT component
2. Exploit the economic potential of the town by supporting the sustainable development of the local initiative and by attracting new investments – ECONOMY component
3. Improve the access of the citizens to modern socio-cultural services and to services adapted to the local needs – SOCIETY component

ACTIVITIES:

1. HABITAT:

- *Rehabilitation and modernization* of the road infrastructure: of the county road, stoned streets and ditches, rehabilitation of the lateral traffic road markings and signs of the national and county roads, foundation of roundabouts at the main crossroads of the town, improvement of the pavements, street signaling, building bike lanes, modernization of exploitation agricultural roads and their

extension, territorial improvement works for the pasture lands and the forests from the public domain, development of the water delivery system and of the sewage system, development of the energy delivery system including LEA, energy rehabilitation in the buildings, building of some social blocks of flats and adjusting the traffic near them, rehabilitation of the buildings belonging to the Agricultural College and also of its boarding house, rehabilitation and modernization of the Bay house and its conversion into a retirement home, development of a multifunctional recreation centre (having a swimming pool, a gym), urban development: setting-up green spaces, modern and proper signaling, building in the town centre equipment for skateboarding and some bike lanes, building a recreation area for picnics on Zugaului Valley, Seinel, Sabisa, Viile Apei, setting-up a camping area near the Zynir citadel, foundation of a botanical garden affiliated to the Agricultural College, establishment of a schedule for water-course regulation on the valleys, establishment of schedules to unsilt the creeks and to clean the streets, harnessing works for Somes and Seinel rivers, building new platforms for the storage and the management of the farmyard manure and of the refuse, forest cleaning, development of an ecological educational program in the community.

2. ECONOMY

- Attract investments in collecting and processing agricultural products: fruits, berries, cereals, milk
- Programs regarding the stimulation of the entrepreneurship in agriculture and programs which offer a continuous formation in this field (exchange of experience abroad, partnerships), sustaining and promoting the local kinds of apples.
- Establish communicational and awareness program targeting the inhabitants of Seini and regarding the local values and the touristic attractions in the area.
- Rejuvenate the tradition of wine production and introducing the local wine cellars into the touristic circuit

- Rehabilitation of the Synagogue and of the Jewish cemetery and their introduction into the touristic circuit
- Draft a specialized research regarding the healing qualities of the underground waters of Seini and develop a touristic health centre based on these resources
- Convert the old barracks into an adventure park, Arsenal Park
- Foundation of an assistance/consulting and support centre for the population (especially for those who have returned home from abroad), in order to support the local initiatives and assist in creating and developing new businesses
- Programs related to the stimulation and the support of the entrepreneurship (especially in the case of young adults) that aim at exploiting the tradition of wood processing and the food industry
- Establish programs related to agro-industrial markets taking place 2 or 3 times a year in order to facilitate the access of the local producers to outlets but also to attract and integrate the supply and demand of local agro-industrial products
- Establish the program entitled “Prosperous Entrepreneurs – A powerful town” which supports local producers, especially in branding and marketing
- Creation of events such as a traditional products fairs, at several occasions over the year (1st of December, the Festival of the town)
- Foundation of an industrial park aimed at attracting new economic operators
- Investments: Photovoltaic Park, biogas installations
- Foundation of a Ltd. By the Town Hall whose main purpose is to provide public services and services of public interest (agricultural and non-agricultural activities, snow removal, gravel plant, sifting station) and that shall be equipped with machinery (tractors, excavators)
- Exploit the areas/buildings associated to the town hall (plants, former farms or other unused buildings)

3. SOCIETY

- Establish a strategy for the transformation/rejuvenation/reconsolidation of the position of the Technological College “Ion Ionescu de la Brad” on the educational market and rebranding it in order to become an attraction point for the educational practice all around the area.
- Set-up the program entitled “5 role models for the youngsters of Seini”
- Build the school campus of the Technological College together with a school cafeteria and build the Seini primary school
- Modernize and expand the buildings of the kindergartens and schools including the facilities
- Develop a compensation strategy of the number of students by increasing the quality and diversity of the educational system, especially with the help of after school activities and club activities
- Found a multifunctional modern sports base near the Seini primary school and stimulate the interest of the young ones for sport activities
- Develop kindergarten groups with extended learning class schedules and develop a nursery in the town
- Develop a communicational campaign with the parents based on general subjects of public interest between the school representatives, the public authorities and a NGO for local development
- Set-up a program that stimulates the local identity amongst the citizens under the name of “Seini is my home”
- Create a program that stimulates the life of the citadel and that brings people into a central Agora
- Valorize the urban tradition of the town of Seini
- Create a cultural long-term strategy that stimulates the cultural manifestations of Seini and that attracts the interest of the citizens for cultural activities
- Modernize and fit up with modern and adequate equipment every community centre of Seini (Seini, Viile Apei, Sabisa)
- Develop an Adult Daycare Centre, expand the services and improve the quality of the management

- Establish a permanent senior centre such as a retirement home
- Develop a strategy to increase the life quality for the elderly of Seini by organizing financially affordable trips (subsidized or sponsored) planned at small and medium distances
- Stimulate the foundation of an Association of Retired People and support its development near the Daycare Centre
- Develop a strategy – a socio-economic integration program of the Romani population of Seini
- Establish some qualification, requalification and professional reorientation programs for vulnerable people or for those with a risk of social exclusion
- Resolve the situation of stray dogs found especially in areas with population exposed to a risk of poverty
- Modernize and equip the permanent centre
- Establish a strategy to attract specialized doctors (especially a gynecologist)
- Attract new medical personnel for the family medicine practices
- Fit the town hall with modern equipment and computational techniques
- Expand and modernize the location of the town hall
- Participation of the personnel from the local public administration to specialized training classes and to experience exchange programs
- Establish a communicational and a public relations strategy of the local public administration towards the citizens
- Set-up a central illuminated display board in Seini, Sabisa and Viile Apei, where there will be presented the main initiatives of the local public administration and other useful information for the citizens (e.g.: opportunities for local business)
- Establish a meeting schedule for the local administration (mayor, town counselors) and the community, in the town, but also in the two associated villages.

D.1.2 Administrative structure of each organisation
